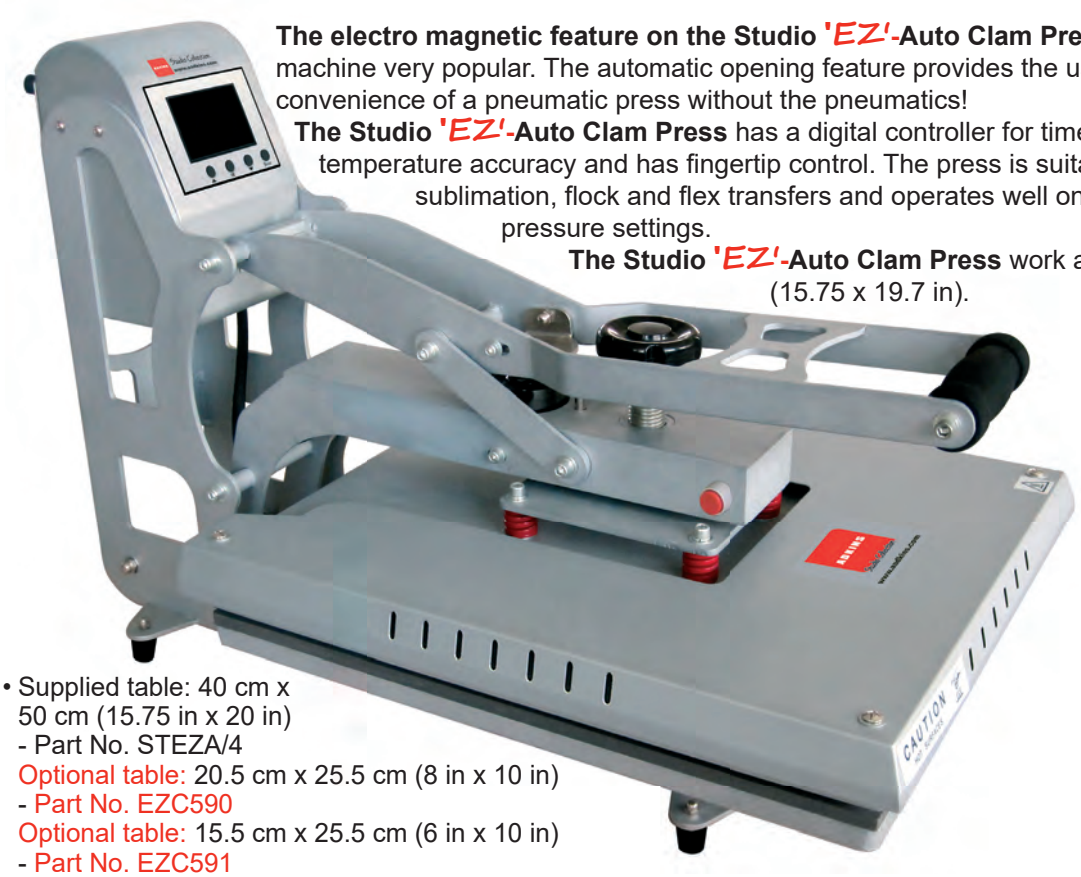
Tel: +61 (2) 9601 6999
Email: info@walcargraphics.com.au



The electro magnetic feature on the Studio 'EZ'-Auto Clam Press makes this machine very popular. The automatic opening feature provides the user with all the convenience of a pneumatic press without the pneumatics!

The Studio 'EZ'-Auto Clam Press has a digital controller for time and temperature accuracy and has fingertip control. The press is suitable for most sublimation, flock and flex transfers and operates well on light to medium pressure settings.

The Studio 'EZ'-Auto Clam Press work area is 40 x 50 cm (15.75 x 19.7 in).

- Supplied table: 40 cm x 50 cm (15.75 in x 20 in) - Part No. STEZA/4
  Optional table: 20.5 cm x 25.5 cm (8 in x 10 in) - Part No. EZC590
  Optional table: 15.5 cm x 25.5 cm (6 in x 10 in) - Part No. EZC591
  Optional shoe table: Part No. EZC586
- Wide opening area - clam action.
- Self adhesive silicone base pad.
- Fingertip pressure control.
- Manufactured and tested to comply with EC safety regulations. CE labelled.
- 12 month warranty on machine.
- Full service/spares support.
- Manual supplied illustrates electrical wiring diagrams, exploded diagram and parts list. Full safety instructions
- Thermal cut out on the heating element shuts off power to the elements if the temperature exceeds 225ºC +/- 15ºC (437ºF +/- 27ºF).

Specifications	European Machine
Power consumption	1800 Watts
Power supply	230 Volts AC
Maximum working temperature	225°C
Display timer range	0 - 480 sec
Machine height open	90 cm
Machine height closed	45 cm
Machine width	52 cm
Machine depth	69 cm
Weight export packed	49 kg
Size export packed	54(L) x 88(W) x 57 cms(H)
Net weight	40 kg
Press pad dimensions	40 x 50 cms
Fuse	15 A

All products within the ADKINS range are labelled with CE marking and are manufactured and tested to comply with EC safety regulations.

ADKINS

HEAT PRESS TECHNOLOGY

BETA, STUDIO, OMEGA & ALPHA MACHINERY RANGES

Digital Controls

Our specially designed microprocessor controllers give accuracy for time and temperature settings, vital with todays heat transfers.

Heat Plates - Silicone Pads

All heat plates are covered with a protective TEFLON® coating and many are made of cast aluminium (cast aluminium heat plates carry a life-time warranty). Quality silicone rubber base pads are used to provide excellent transfer results every time.

Appearance

To maintain the good appearance of the press all cast frames are powder coated. This proven baking system will protect the machine from discolouration and minor knocks and scratches.

Operators Manual

Full specification and operating instructions on all aspects of the machines, electrical diagrams, exploded diagrams and parts list are included with every machine.

Service - Parts

You can always speak directly to our service department technicians for any technical support or information. We also carry spare parts for all of our machine range.

Accessories

We offer a range of detachable tables for various other operations requiring special sized platerns for example, umbrellas, bags etc.

Contact

We are always here to help.

Quality Engineering & Safety

Each press is individually hand-built. All ADKINS machines are built to the highest standards, we use only the best quality components, they are all tested to comply with the various safety regulations from around the world.
